

October Labs

In October, we read Lessons 3 and 4 and answered questions on your reading. Below are the reading assignments for each week. (Some of you turned in p. 43-48 with the September packet by mistake, so you may need to find them and put them here.)

Please write a heading above each question set and arrange them in this order:

- Lesson 3, p. 43-48
- Lesson 3, p. 49-59
- Lesson 4, p. 62-72
- Lesson 4, p. 72-79

Here are lab activity pages, in the order we did them. (If you were absent, you are excused from the lab).

- Play Doh Lab
- Bubble Gum Lab
- Measuring Volume Using Subtraction
- Using a Thermometer
